

## IC3G 2016: Guidelines for preparing abstracts

Authors preparing abstracts for submission to the International Conference on Geomechanics, Geo-energy and Geo-resources (IC3G 2016) should adapt this guideline document as if it were a template. Please do not change any typefaces or font sizes.

The abstract should show (in this order) *title, authors and affiliations, content, and keywords*.

### A. Title

Please provide a descriptive title of the proposed paper. It should be concise and not span more than 2 lines on a page with the present size and margins. Use **14 pt Times New Roman, bold**, and capitalisation as if the title were an ordinary sentence.

### B. Listing of authors and affiliations

Use this styling:

F.A. Author<sup>a\*</sup>, S.B. Author<sup>b</sup>, and T.C. Author<sup>c</sup>

<sup>a</sup> Rock Mechanics University, Melbourne, Australia

[email.address1@domain.com](mailto:email.address1@domain.com)

<sup>b</sup> Deep Earth University, Melbourne, Australia

[email.address2@domain.com](mailto:email.address2@domain.com)

<sup>c</sup> Deep Earth Ltd, Melbourne, Australia

[email.address3@domain.com](mailto:email.address3@domain.com)

### C. Style for the body of the abstract

1. The substantive text of the abstract should be no more than 350 words. Use Times New Roman, black, 11-point, single-spaced (as in these instructions). Use full justification.

### D. Keywords

Provide up to 5 keywords using the same font as above but in *italics*, separated by commas. Capitalise the first letter of each word:

*Keywords: Keyword1, Keyword2, Keyword3, Keyword4, Keyword5*

### Process after submission

1. Abstracts will be reviewed, and acceptance or rejection will be notified by **1 January 2016**.
2. Acceptance will be accompanied by an invitation to submit the full paper.
3. Full papers will also be reviewed by experts in the relevant field, and their comments will be provided by **15 June 2016**.
4. Upon acceptance of the full paper, a conference presentation slot will be scheduled for it.
