# IC3G 2018, Chengdu

IC3G 2018 is an international conference organized by the 3GDeep research group of Monash University. It is the second event of a series of international conferences in the geo-mechanics, geo-energy and geo-resources community of Australia and worldwide. IC3G 2018 is expected to be attended by over 200 delegates, in Australia and worldwide, from academic institutes and engineering practices.

IC3G 2018 will take place at Sichuan University, Chengdu, China. The exhibition will be held in the hall outside the conference main and break-up theatres and will be easily accessed by the delegates. Sponsors and exhibitors will find the IC3G 2018 provides unique opportunity to targeted engineering market associated with tunnels and slopes, energy and environment, research and development.

We are seeking sponsors to support the IC3G 2018 conference. Leading engineering consultants, contractors, equipment and materials suppliers are invited to take this opportunity to demonstrate their support to the geo-environment and rock mechanics community, and their commitment to sponsor geo-environment research and rock engineering technology development.

We are encouraging reputable equipment manufacturers and material suppliers, engineering contractors and consultants, research institutes and laboratories to showcase products and services, and to develop new collaborations and markets. The exhibition will be open for 2 days throughout the conference period on Sichuan University, 14 to 16 September 2018.
